

Bachelor of Film and Video

1. About the Bachelor of Film and Video

The Bachelor of Film and Video provides graduates with knowledge and skills in video production with sound, lighting and production processes along with post-production workflows focusing on video editing, colour grading, sound and motion graphic design suitable for a broad range of motion design related sectors and employment opportunities. The specialisation interweaves the acquisition of practical skills with the study of moving image design, film, television and media theory, and the study of professional practice in motion design workplaces. The course design incorporates industry-informed briefs, industry mentors, client projects, internship opportunities and study of emerging areas of motion design practice. In this way graduates have the opportunity to pair a well-rounded motion design generalist knowledge base with further focused niche skills development in a motion design specialist area.

Graduate employment opportunities

This specialisation provides graduates with the capability to seek employment in a range of film and video design-related roles, including:

- Art director
- Animation director
- Colour grader
- Composer
- Digital video producer
- Broadcast designer
- Motion graphic designer
- Storyboard artist
- Social media video production
- Titles designer
- Video editor
- Videographer
- Video producer

Graduates can expect to undertake these roles as permanent or freelance employees, either within a dedicated film or broadcast postproduction, animation, visual effects or game studio environment, or alternatively as an in-house specialist working for organisations based within any of the following sectors: advertising, business/commercial, media/publishing, web/interactive or education/training.

Course Overview

Course Title	Bachelor of Film and Video		
Study Options – Domestic Australian students	Face to Face delivery Online delivery Full-time and part-time options available.	Study Options – International students	International students on a student visa must not enrol into any more than a third or 33% of online subjects over their course and must study at least one subject that is face to face in each trimester. International students on a student visa are required to study full time, i.e. the student must complete a minimum of 1.0 EFTSL of study per year.
Start Dates	February, June, September For specific dates visit the website .	Course Length	Full-time: 3 years Part-time: 6 years
Payment Options - Domestic Australian students	Upfront payment This means tuition fees will be invoiced each semester and payment is required on or before the due date. FEE-HELP FEE-HELP is Australian Government’s loan scheme for higher education degree courses. It can assist you in paying for all, or part of, your course fees. Repayments commence via the tax system once your income rises above a minimum threshold. Just like with any other debt, a FEE-HELP debt is a real debt that impacts your credit rating.	Payment Options – International students	Upfront payment This means tuition fees will be invoiced each semester and payment is required on or before the due date.
Course study requirements	Each subject involves 10 hours of study per week, comprising 3 hours of facilitated study and 7 hours self-directed study.	Assessment	Essays, reports, presentations scenario and case studies, and reflective journals.
Locations	Sydney Online	Delivered by	Torrens University Australia
Provider	Torrens University Australia Ltd is registered as a self-accrediting	CRICOS Course Code	103347E

	Australian university by the Tertiary Education Quality and Standards Agency (TEQSA).		
Provider obligations	Torrens University is responsible for all aspects of the student experience, including the quality of course delivery, in compliance with the Higher Education Standards 2015	Accrediting body	Torrens University Australia Ltd
Course Fees	For details, refer to the website .	Any other fees	For details, refer to the website .

2. Essential requirements for admission

The general admission criteria that apply to Torrens University Australia courses can be located by visiting the Torrens University Australia website - <https://www.torrens.edu.au/general-admission-information-for-torrens-university-australia-ltd>.

3. Student Profile

The table below gives an indication of the likely peer cohort for new students in this course. It provides data on students who commenced in this course in the most relevant recent intake period, including those admitted through all offer rounds and international students studying in Australia.

Applicant background	Trimester one / Full year intake [2020]	
	Number of students	Percentage of all students
(A) Higher education study (includes a bridging or enabling course)	<5	N/P
(B) Vocational education and training (VET) study	N/A	N/A
(C) Work and life experience (Admitted on the basis of previous achievement not in the other three categories)	<5	N/P

(D) Recent secondary education:		
<ul style="list-style-type: none"> Admitted solely on the basis of ATAR (regardless of whether this includes the consideration of adjustment factors such as equity or subject bonus points) 	<5	N/P
<ul style="list-style-type: none"> Admitted where both ATAR and additional criteria were considered (e.g. portfolio, audition, extra test, early offer conditional on minimum ATAR) 	N/A	N/A
<ul style="list-style-type: none"> Admitted on the basis of other criteria only and ATAR was not a factor (e.g. special consideration, audition alone, schools recommendation scheme with no minimum ATAR requirement) 	<5	N/P
International students	<5	N/P
All students	10	100%

Notes: “<5” – the number of students is less than 5.
N/A – Students not accepted in this category.
N/P – Not published: the number is hidden to prevent calculation of numbers in cells with less than 5 students.

4. Admission Criteria

Title of course of study	Bachelor of Film and Video
Applicants with higher education study	<ul style="list-style-type: none"> A completed higher education qualification at AQF level 5 (diploma) or above, or equivalent, from an Australian University or another accredited higher education provider <p>OR</p> <ul style="list-style-type: none"> Successful completion of at least 1 EFTSL (equivalent full-time student load, or one full year) of an AQF level 6 (Associate Degree) or above, or equivalent, from an Australian University or another accredited higher education provider.
Applicants with vocational education and training (VET) study	<ul style="list-style-type: none"> A completed vocational education qualification at AQF level 4 (Certificate IV) or above, or equivalent, from a registered training organisation (RTO) <p>OR</p> <ul style="list-style-type: none"> Successful completion of at least 1 EFTSL (equivalent full-time student load, or one full year) of an AQF level 5 (Diploma) or above, or equivalent, at a registered training organisation (RTO).
Applicants with work and life experience	Demonstrated ability to undertake study at the required level:

Title of course of study	Bachelor of Film and Video								
	<ul style="list-style-type: none"> broadly relevant work experience (documented e.g. CV), demonstrating a reasonable prospect of success; OR formal, informal or non-formal study, completed or partially completed, demonstrating a reasonable prospect of success; OR written submission to demonstrate reasonable prospect of success; OR discipline specific portfolio (art and/or design). 								
English Language Proficiency (applicable to international students, and in addition to academic or special entry requirements noted above)	IELTS (or equivalent) score of 6.0 minimum (Academic Module) or above, with no skills band less than 5.5								
Applicants with recent secondary education (within the past two years) with ATAR or equivalent* (for applicants who will be selected wholly or partly on the basis of ATAR)	<p>Completed year 12 or equivalent</p> <p>Pathway 1: Satisfactory (pass) completion of Standard English at HSC or equivalent level.</p> <p>Pathway 2: Current Special Entry</p>								
<p><i>*ATAR profile for those offered places wholly or partly on the basis of ATAR in T1 2020:</i></p> <table border="1"> <thead> <tr> <th>(ATAR-based offers only, across all offer rounds)</th> <th>ATAR (OP in QLD) (Excluding adjustment factors) *</th> </tr> </thead> <tbody> <tr> <td>Highest rank to receive an offer</td> <td><5</td> </tr> <tr> <td>Median rank to receive an offer</td> <td><5</td> </tr> <tr> <td>Lowest rank to receive an offer</td> <td><5</td> </tr> </tbody> </table> <p><i>Notes: * "<5" – indicates less than 5 ATAR-based offers were made</i></p>		(ATAR-based offers only, across all offer rounds)	ATAR (OP in QLD) (Excluding adjustment factors) *	Highest rank to receive an offer	<5	Median rank to receive an offer	<5	Lowest rank to receive an offer	<5
(ATAR-based offers only, across all offer rounds)	ATAR (OP in QLD) (Excluding adjustment factors) *								
Highest rank to receive an offer	<5								
Median rank to receive an offer	<5								
Lowest rank to receive an offer	<5								

Other admission options

(For applicants who will be selected on a basis other than ATAR)

Special Entry	<p>Applicants in any category whose study, work or life experiences have been impacted by disability, illness or family disruption will be given special consideration for admission. Each application will be considered on its merit, based on the evidence supplied by the applicant attesting to the circumstances of the applicant. Applicants for special entry may need to complete written or numerical tasks to assist with assessing eligibility for admission.</p>
----------------------	---

5. How to apply

Via direct application to the institution

- <https://apply.torrens.edu.au/>

6. Advanced standing/academic credit/recognition of prior learning (RPL)

You may be entitled to credit for prior learning, whether formal or informal. Formal learning can include previous study in higher education, vocational education, or adult and community education. Informal learning can include on the job learning or various kinds of work and life experience. Credit can reduce the amount of study needed to complete a degree.

Applicants admitted based on prior higher education study may be eligible for Advanced Standing in the form of credit and/or recognition of prior learning (RPL) under the Torrens University Australia [Credit Policy - \(https://www.torrens.edu.au/policies-and-forms\)](https://www.torrens.edu.au/policies-and-forms).

- Students with completed subjects may be eligible for specified credit and/or elective exemptions
- Students who have completed a qualification at AQF level 5 (diploma) or above may be eligible for block credit (where a block credit agreement exists)
- Students with a mix of formal study and informal and/or non-formal learning may be eligible for recognition of prior learning in addition to any credit approved.

Credit will not be applied automatically. Applicants must apply for credit and/or RPL as early as possible prior to each study period, with applications not accepted after week 2.

For further information about credit and recognition of prior learning please see <http://www.torrens.edu.au/apply-online/course-credits>.

7. Where to get further information

- Torrens University Australia (TUA) Website
 - <https://www.torrens.edu.au/>
- Universities Admissions Centre (UAC) Website
 - <http://www.uac.edu.au/>
- Quality Indicators for Learning and Teaching (QILT) Website
 - <https://www.qilt.edu.au/>

8. Additional Information

Course Structure

The course structure comprises eight common core subjects, 12 specialised and four elective subjects over Levels 100, 200, and 300, as follows:

- Level 100: three common core subjects; four specialised subjects; one elective subject
- Level 200: three common core subjects; four specialised subjects; one elective subject
- Level 300: two common core subjects, four specialised subjects; two elective subjects (one x 300 level and one x 200 or 300 level elective).

*Electives available to students may be chosen from the elective bank (please refer to the Course Structure on the Student HUB) or can be taken from any Torrens University course at the appropriate level with approval from the Program Director (or delegate).

Course Rules

To be awarded the Bachelor of Film and Video, students will need to complete 240 credit points over 24 subjects as outlined in the Course Structure. Each subject has a value of 10 credit points.

Subjects

SUBJECT DETAILS
SUBJECT TITLE, DESCRIPTOR
LEVEL 100
<p>DCX101- Design Context</p> <p>Design Contexts is a foundational subject that introduces students to the designed world and their place within it. Students are encouraged to explore the interconnected nature of design and its capacity to inspire change, drive progress and navigate complex challenges. Through observation, research and iterative approach students will develop a series of creative responses that demonstrate an awareness of the value of design and its ability to create meaningful interactions for people, communities and their environments.</p>
<p>ICC100- Camera and Capture</p> <p>This subject introduces students to the foundations of photo imaging so that they can develop the technical and creative skills required to operate a digital camera under a range of conditions. Students will receive feedback on their images and learn to give constructive criticism to their peers, enabling them to start seeing and thinking like a photographer. This subject serves as a solid foundation from which to pursue further specialised photography skills.</p>
<p>DIG104- Motion Design</p> <p>This subject focuses on the foundational skills required for high quality video productions. The process of developing a live action video piece is introduced along with all of the phases from pre-production through to post-production. Students explore the necessary skills in camera-based production including basics of lighting, sound recording and video editing. Students are also introduced to motion graphic design in the post-</p>

SUBJECT DETAILS
SUBJECT TITLE, DESCRIPTOR
production phase through concepts such as compositing, video masking and animated title sequences.
<p>DSO102- Design Studio 1</p> <p>This subject explores the relationship between materials and storytelling. It introduces students to the attributes of materiality and encourages them to re-imagine the possibilities of creating through making. Students will explore the art of paper folding, developing skills and taking creative risks. These results will be captured digitally and altered using the appropriate software. Individual tasks allow students to develop an understanding and appreciation of materials, their many varied uses, properties, and the sustainable manufacturing processes related to them. Students will progress towards determining suitable materials in which to construct their final model with its form and function contextualised and supported by a documented process journal. Their final submission will be a model that reminds us that stories which fill our lives are not only spoken and written but sometimes are best told through craft.</p>
<p>PMI100- Psychology of Moving Image</p> <p>This subject explores a variety of theoretical and philosophical approaches to how the moving image changes the perception and psychology of the consumer. This subject is audience oriented and focuses on the reception and interpretations of communication, which then influence which visual and aural strategies are employed. Students explore fundamental psychological concepts about dynamic and moving imagery translation of meaning. Students employ these new understandings to tell stories and produce works that trigger specific emotional reactions and feelings with audiences.</p>
<p>BCI100- Beyond the Creative Industries</p> <p>This subject introduces a wide array of emerging trends and interdisciplinary career opportunities that sit outside traditional creative industries. This subject explores the intersection of technology and design across a range of industries looking beyond the field of entertainment. Students broaden their understanding of potential career opportunities by challenging existing stereotypes where specialist technical skills are utilised. Students are encouraged to investigate case studies, identify emergent trends and examine strategies to develop, navigate and cultivate collaborations with professionals from other specialisations</p>
<p>DSO103- Design Studio 2</p> <p>Design Studio 2 offers an introduction to the building blocks of creating and developing brands and is designed to give students a broad understanding of the stages and methodologies adopted in the brand development process. The subject draws on the theory and practice that sits behind brand creation. It covers the broad spectrum of brand development, values, trends and branding techniques, as well as fundamentals such as brand positioning and brand architecture. The subject also explores the relationship between branding and audiences, cross-cultural influences and shifts in consumer behaviour. Students must first understand and apply the fundamentals of branding and then go on to use that knowledge as the basis for developing and progressing a brand. This theoretical and practical subject will equip students with the knowledge and insight with which to build their own branding expertise.</p>
LEVEL 200
<p>DSO201- Design Studio 3</p>

SUBJECT DETAILS
SUBJECT TITLE, DESCRIPTOR
<p>The subject introduces business practices such as costing, time management, value engineering and general models of monetising and valuing output typical of a variety of design industries. Case study analyses of a typical design industry business practices, domestic and international, acquaint students with the differences and similarities that exist. Students learn about contractual agreements, and where appropriate become familiar with international shipping and distribution terms as well as an introduction to design copyright laws. Initial overview of time allocation practices and the creation and understanding costing terms such as: Bill of Material (BOM) /Scope of Work / Deliverables used in typical projects is followed by application. Students plan a project from start to finish through to the development of an appropriate project management plan for their industry such as time management charts with typical dependencies highlighted and costed.</p>
<p>LAP200- Live Action Production</p> <p>This subject continues to explore the theory and practice of live action video production. The subject introduces production planning concepts and techniques that enhance production experiences. The subject expands student’s awareness of video production techniques with more detail on the creative and technical aspects of working with cameras, lighting and sound. The investigation of film theory and history is continued with an emphasis on enrichment of idea generation and concept development processes. The subject explores the use of video editing, sound design and post-production techniques to communicate mood, narrative and information.</p>
<p>MGD200- Motion Graphic Design</p> <p>This subject develops idea generation and concept development practices applied to motion graphic sequences. As a means of enriching the design process, the history of motion graphic traditions such as broadcast and film title design are also investigated. Students develop motion graphic animations using a variety of techniques that may include kinetic typography, 2D and 2.5D animation, video compositing, visual effects, and rotoscoping. By exploring new techniques students expand their video, animation and mixed media production abilities.</p>
<p>PBL202- Problem Based Learning</p> <p>Problem-based learning (PBL) is a pedagogical approach that enables students to learn while engaging actively with meaningful problems. Students are given the opportunities to problem-solve in a collaborative setting, create mental models for learning, and form self-directed learning habits through practice and reflection. The underpinning philosophy of PBL is that learning can be considered a “constructive, self-directed, collaborative and contextual” activity. The principle of construct positions students as active knowledge seekers and co-creators who organise new relevant experiences into personal mental representations with the help of prior knowledge. This is further reinforced by social theories of learning that advance the merits of social interaction in cognitive development. The aim of this subject is to trigger student learning with a problem which needs resolution. Students make connections to the challenge by activating their individual and collective prior knowledge and finding resources to make sense of the phenomenon; they also engage in peer learning through small-group discussions and consolidate their learning through reflective writing. Beyond enabling students to make sense of the concepts and subject matter, this learning experience will also help students develop an understanding of themselves and their contexts, and the ways and situations in which they learn effectively.</p>

SUBJECT DETAILS
SUBJECT TITLE, DESCRIPTOR
<p>NPR200- Narrative Production</p> <p>This subject develops and extends students skills in live action camera based video production with a focus on storytelling. Concept development and pre-production techniques such as scriptwriting and storyboarding are emphasized as crucial components of moving image story development. As part of this skill development, this subject requires students to develop effective filmic storytelling techniques and translate story from audio fictions into screenplay. Students are required to produce narrative driven videos to effectively communicate memorable and impactful stories on screen.</p>
<p>PPF200- Post-Production Fundamentals</p> <p>This subject explores the fundamental techniques of post-production for video such as editing, colour grading and sound design. A range of technical aspects managed by a post-production designer such as file formats, frame rates, sound file compression, exporting methodologies, colour grading, vector scope analysis, and sound mastering are explored. This subject also requires students to employ creative decisions to change and influence narrative, messaging and emotional resonance of video footage using post-production methodologies. These skillsets are central to be able to creatively influence video design both during and after production.</p>
<p>DDD203- Discover, Define, Develop, Deliver</p> <p>The myth of innovation is that brilliant ideas leap fully resolved from the minds of geniuses. The reality is that most innovation comes from a process of rigorous examination through which great ideas are identified and developed before being realised as new offerings and capabilities.</p> <p>This subject introduces Problem Based Learning (PBL), mapped out as the 'Double Diamond', the collaborative process by which the designer's sensibilities and methods are employed to integrate the needs of people, the possibility of technology and the requirement for business success. In short, Double Diamond approach converts need into demand. It's a human-centred approach to problem-solving that focuses thinking about meanings instead of features, searching for radical changes instead of improvements and proposing visions instead of satisfying existing needs.</p> <p>Today, designers across many disciplines share some similar approaches to the creative process. Every design specialist has a different approach and way of working, but there are some commonalities in their creative process. Divided into four distinct phases – Discover, Define, Develop and Deliver – the Double Diamond is a simple visual map which illustrates the PBL approach.</p> <p>In this subject, students examine a range of possible ideas – divergent thinking; before refining and narrowing down to the best idea – convergent thinking. To discover which ideas are best, the creative process is iterative. Ideas are developed, tested and refined many times, with weak ideas dropped in the process. This cycle is an essential part of a good design strategy.</p> <p>Students are introduced to practical design methods – like user journeys, empathy mapping, character profiles – and how they can be used to move a project through the four phases of the Double Diamond.</p> <p>Discover – The first quarter of the Double Diamond model covers the start of the project. Students look at the world from a fresh perspective; notice new things and gather insights.</p>

SUBJECT DETAILS
SUBJECT TITLE, DESCRIPTOR
<p>Define – The second quarter represents the definition stage, in which students analyse and synthesise all of the possibilities identified in the Discover phase. Which matters most? Which should we act upon first? What is feasible? The goal here is to develop a clear creative brief that frames the fundamental design challenge.</p> <p>Develop – The third quarter marks a period of development where solutions or concepts are created, prototyped, tested and iterated. This process of trial and error helps students to improve and refine their ideas.</p> <p>Delivery – The final quarter of the Double Diamond model is the delivery stage, where the resulting project (a product, service or environment, for example) is finalised, produced and launched.</p> <p>Thinking like a designer can transform the way you develop products, services, processes – and even strategy.</p>
LEVEL 300
<p>SEN301- Social Enterprise</p> <p>Social Enterprise is an exciting theoretically-based subject that is driven by the desire to create positive change through entrepreneurial activities. By providing students with a framework to understand business model generation and the skills to source, evaluate, and measure opportunities through systematic research and competitor analysis, Social Enterprise empowers students to conceptualise, develop and propose new ventures and products that focus primarily upon social change for good. In addition, this subject will help students understand and address the practical challenges of working within this environment; to analyse different entrepreneurial business strategies, to explore diverse funding strategies, as well as incorporate theoretical discussions on major trends and issues in the social economy. Social Enterprise enables students to appreciate the power of creativity in problem-solving and the importance of the designer’s role in making a difference and precipitating change.</p>
<p>AVP300- Advanced Video Production</p> <p>This subject investigates advanced video production strategies in the form of mixed media experimental video. Students are required to produce and develop a unique aesthetic and visual style of video through a combination of different moving image mediums such as 2D, 2.5D and 3D. This subject also introduces an array of advanced experimental techniques including visual effects strategies, non-linear narrative, medium and platform specific content, temporal and ephemeral media. Students are required to produce work that breaks conventional video production strategies and embraces new development within and around conventional distribution, consumption and production methodologies.</p>
<p>PMP300- Persuasive Media Production</p> <p>This subject explores new media platforms and influence that video production has had with the rise of social media platforms and their associated micro-trends. This subject requires students to identify, research, develop and distribute branded outcomes within those micro-trends on a dedicated social media platform. Students are exposed to the psychological hooks that engage audiences and video production trends that have developed alongside the new platforms. Students are required to explore the nuances of audience and platform distribution strategies and analyse case studies surrounding successful and contextual outcomes.</p>

SUBJECT DETAILS
SUBJECT TITLE, DESCRIPTOR
<p>The subject dispels the idea that traditional distribution outlets for video production are the dominant forms of consumption</p>
<p>CDM301A- Major Project</p> <p>This subject addresses new and emerging processes, practices and techniques within the field of design and technology. In response to a self-identified area of exploration, students design, construct and document a body of work that acts as a vessel for personal creative investigation and output. Requiring a critical understanding of research methodologies and practices, this subject challenges students to identify an emotional and authentic core to their body of work, whilst simultaneously authenticating their own position as emerging professional designers.</p>
<p>ELECTIVE</p>
<p>WIL302- Work Integrated Learning</p> <p>OR</p> <p>WIL302B- Work Integrated Learning (Industry Live Brief)</p> <p>This subject is designed to provide students with professional experience in an area related to their field of study or the career they are working towards. The aim of providing industry-specific opportunities is to enable students to develop skills that will enhance their prospects of gaining meaningful employment and building their career for the future.</p> <p>Much of the benefit of work integrated learning comes from observation, practicing under supervision and reflection. Work Integrated Learning is an excellent way to broaden the students learning environment while they are studying. It allows them to see first-hand how what they are learning in their degree translates into practice, as well as how ‘real world’ practice relates to what they are learning at University. This subject will develop work ready skills and boost students’ employability while they are studying.</p> <p>There are two work integrated learning options available to students:</p> <p>Option 1: Internship</p> <p>Students are offered the opportunity to work within a professional design environment for an extended period of time. It encourages students to build long-term relationships with the design industry and exposes them to the rigour of applied design practice while building their confidence in adapting to new environments. It also provides a context in which to enhance their communication skills and work collaboratively in a professional arena. Students will undertake a series of research tasks, conducting interviews and gathering data in order to understand the key concepts in managing a professional design practice with emphasis placed on the operation of the professional design environment.</p> <p>Option 2: Industry Live Brief</p> <p>This subject requires students to respond to criteria set within the context of an Industry Live Project. An understanding of research methodologies appropriate to professional practice and the documentation of personal creative investigation will be explored. Students will also further investigate and examine entrepreneurial and commercial opportunities through collaborative work practice. The subject is delivered from a cross discipline perspective and draws on both discipline specific and common design practices.</p>

SUBJECT DETAILS
SUBJECT TITLE, DESCRIPTOR
Students are required to work both independently or as part of a collaborative team in order to conduct research, analyse and define project parameters and deliver innovative solutions that expand the notion of an industry live brief.
<p>CDM303A- Portfolio</p> <p>This subject focuses on exploring a broader understanding of design portfolios and the presentation of creative works to form a cohesive and authentic personal narrative. Contextualised through the lens of current industry requirements, students define their own design philosophy and use this to compose an effective personal design identity and portfolio. Supported by self-directed research, students evaluate contemporary styles, methods and formats of presentation to deliver a portfolio and suite of materials that can be used to initiate dialogue between themselves and the design industry.</p>

Locations

The Bachelor of Film and Video can be studied fully online or at the below Torrens University Campuses:

- Sydney: Level 1, 46-52 Mountain Street, Ultimo NSW Australia 2007

Campus Facilities and Services

All campuses are designed to provide students with professional spaces in which to learn and work. They have been planned with student study needs in mind with well-equipped accessible learning spaces as well as student breakout areas for group work and spending time with friends.

Facilities and Services include:

- The Customer Service Hub – our friendly and experienced staff can give help and advice about courses, your enrolment and campus life, including all services and activities on campus.
- Counsellors are available for students to consult with on a range of personal issues
- Student wireless access throughout the Campus
- Student break-out and relaxed study spaces for group work
- Student lounge areas – most with microwaves, kitchenette facilities and vending machines
- The Learning Hub, home to the Learning Support Team, encompasses Learning Skills Advisors, Learning Technology Advisors, and Library & Learning Skills Officers. It provides an integrated, holistic support program for students throughout the study lifecycle within a library/collaborative study environment.

The service includes:

- Support and workshops with highly qualified staff in the areas of Academic skills, Library skills, and Technology skills, both on campus and online.
- Physical and digital resources relevant to studies, such as books, journals, multimedia, databases
- Self-check kiosks for library loans and print and copy facilities

A positive student experience

Torrens University Australia values the importance of a positive student experience, and therefore has robust processes to resolve student complaints. The Student Complaints Policy, and associated procedures, can be accessed from the [website](https://www.torrens.edu.au/policies-and-forms) (<https://www.torrens.edu.au/policies-and-forms>).

Paying for your qualification

We offer two payment options for this course:

- **Upfront payment**

If you want to complete your qualification debt-free you can choose to pay as you go. This means tuition fees will be invoiced each semester and payment is required on or before the due date using EFTPOS, credit card or direct transfer.

- **FEE-HELP**

FEE-HELP is Australian Government's loan scheme for higher education degree courses. It can assist you in paying for all, or part of, your course fees. Repayments commence via the tax system once your income rises above a minimum threshold. Just like with any other debt, a FEE-HELP debt is a real debt that impacts your credit rating.

Further information about FEE-HELP, including eligibility, is available at:

- FEE-HELP website:
<http://studyassist.gov.au/sites/studyassist/help-payingmyfees/fee-help/pages/fee-help->
- FEE-HELP booklets:
<http://studyassist.gov.au/sites/studyassist/helpfulresources/pages/publications>

Austudy and Abstudy

Students enrolled in this course may be eligible for government assistance, such as [Austudy](#) or [Abstudy](#).
