Subjects

SUBJECT DETAILS
SUBJECT TITLE, DESCRIPTOR
Level 100
<p>DCX101 Design Context</p> <p>Design Context is a foundational subject that introduces students to the designed world and their place within it. Students are encouraged to explore the interconnected nature of design and its capacity to inspire change, drive progress and navigate complex challenges. Through observation, research and iterative approach students will develop a series of creative responses that demonstrate an awareness of the value of design and its ability to create meaningful interactions for people, communities, and their environments.</p>
<p>DGDDD100 Digital Design Foundations</p> <p>This subject introduces a core set of industry-standard specialist design software tools. The emphasis of this subject is on building a comprehensive familiarity with these tools and features so that their application becomes second nature and can be treated as part of the</p>

<p>overall creative tool kit. Students will work through a range of small exercises to cement their learning and to build their working knowledge by experimenting with different tools and techniques. Students will then combine these tools and techniques to explore print and screen-based projects and in doing so, become aware of how to create flexible visual outcomes not wedded to single-use mediums.</p>
<p>MKT101A Marketing Fundamentals Students will gain a solid foundation in the marketing discipline introducing relevant and contemporary concepts, theories and models. The unit magnifies the importance of understanding consumer behaviour, segmentation, targeting and positioning, the extended marketing mix and ethics in marketing. Industry relevance provides students with the opportunity of applying key concepts in practical settings. These marketing foundations are expanded on in other subjects available as electives.</p>
<p>DSO102 Design Studio 1 This subject explores the relationship between materials and storytelling. It introduces students to the attributes of materiality and encourages them to re-imagine the possibilities of creating through making. Students will explore the art of paper folding, developing skills and taking creative risks. These results will be captured digitally and altered using the appropriate software. Individual tasks allow students to develop an understanding and appreciation of materials, their many varied uses, properties, and the sustainable manufacturing processes related to them. Students will progress towards determining suitable materials in which to construct their final model with its form and function contextualised and supported by a documented process journal. Their final submission will be a model that reminds us that stories which fill our lives are not only spoken and written but sometimes are best told through craft.</p>
<p>FA113A Fashion Concepts Fashion Concepts provides the opportunity for students to develop their understanding of concepts and structures that may be employed in a contemporary fashion environment. In this subject, students develop their knowledge of:</p> <ul style="list-style-type: none"> • trend analysis and design development • sampling and production • fashion wholesale and retail concepts • ethics and questions of sustainability within fashion supply chains. <p>Students will be required to research and critically analyse contemporary fashion models and identify, describe and model a fashion enterprise of their own development.</p>
<p>ENT101 Introduction to Entrepreneurship The aim of the subject is to develop an entrepreneurial mindset that incorporates creativity, innovation and research/analytical abilities. The subject focuses on entrepreneurship for start-up businesses as well as entrepreneurial behaviour within larger organisations. Students are introduced to the theory and practice of entrepreneurship, the characteristics of entrepreneurs through a range of case studies, and the “mindset” of the entrepreneur. They will gain an overview of the business startup process, make an assessment of their own “mindset” for entrepreneurship and map out their journey to develop their mindset and skillset as entrepreneurs.</p>
<p>DSO103 Design Studio 2</p>

SUBJECT DETAILS
SUBJECT TITLE, DESCRIPTOR
<p>Design Studio 2 offers an introduction to the building blocks of creating and developing brands and is designed to give students a broad understanding of the stages and methodologies adopted in the brand development process. The subject draws on the theory and practice that sits behind brand creation. It covers the broad spectrum of brand development, values, trends and branding techniques, as well as fundamentals such as brand positioning and brand architecture. The subject also explores the relationship between branding and audiences, cross-cultural influences and shifts in consumer behaviour. Students must first understand and apply the fundamentals of branding and then go on to use that knowledge as the basis for developing and progressing a brand. This theoretical and practical subject will equip students with the knowledge and insight with which to build their own branding expertise.</p>
<p>BIZ104 Customer Experience Management</p> <p>The 21st Century economy is dynamic and driven by customers ever changing wants and needs. To remain competitive businesses need to understand what their customers want and how to deliver a quality customer experience that goes beyond the product or service offering. This subject explores how a customers' perceptions – both conscious and subconscious – effect their relationship with a brand's value proposition. Students will explore how a customer's interactions with a brand during the customer life cycle will determine level of customer satisfaction. Students will analyze Customer Journey Mapping techniques, Employees engagement in the customer experience strategy and metrics of satisfaction loyalty and advocacy.</p>
